LETTER FROM THE PRINCIPAL

I am truly sad with the news that Sheikh Khalifa bin Zayed, may God rest his soul, passed away. We will be mourning him by not playing any song/music in the nursery.

This month will be talking about building, with a bit of construction to make it easier for our children to learn how building/house is to be made.

BUILDING!

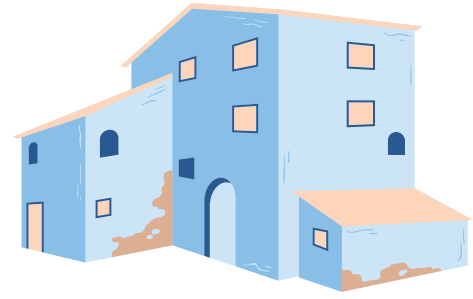

This month's theme is about Building! It is a fun learning process for our children because they always are doing something that is related to building, such as drawing a house, making a tower with the blocks,

CONSTRUCTION

We took our children to the construction room to teach our children how to build a house, villa, building, etc... and what material is being used such as wood, stone, mud, and more. In addition, our children learn/revise the construction vehicles.

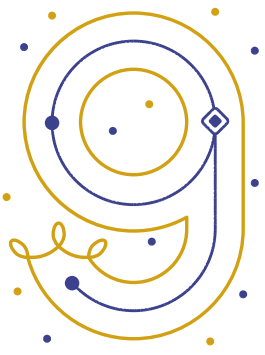

LETTERS

Our children learn the letters Y -Q with Arabic letters such as ه - ن. We give our children lots of examples to be able to memorize and distinguish between the letters such as exercise, coloring, pictures, and toys.

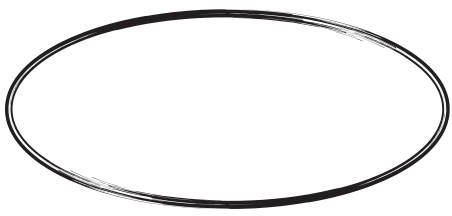

NUMBERS

This month we focused on the number 9. Our children had lots of fun learning number 9. We did many activities with the children by counting, playing, and coloring,.

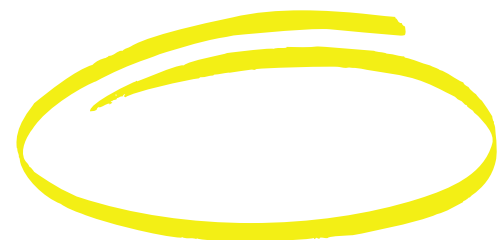

Oval

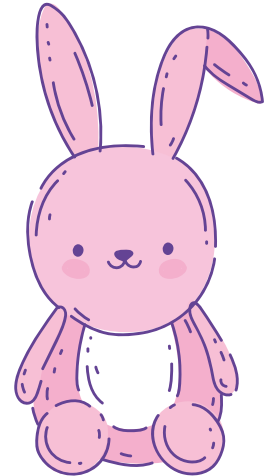

This month we focused on the shape of the Oval. We compare the oval shape with the circle since they are close in shape, but we were delighted that our children were able to differentiate between them. We did the coloring, and drawing, we also played with cards that got the pictures of ovals.

CUTE BABIES

We got pictures to share with our lovely babies!
