LETTER FROM THE PRINCIPAL

Farewell January and hello February. This month is about nature and insects, we want to show the importance of insects and what they can provide for us. We planned an entertaining event for our children to have fun learning about insects.

NAHOULA AND HER FRIENDS

On the 28th of February, we talked about BEE! We talked about how the bee is important to us, and what they produce. Our children wore a bee custom to participate in the event. It was a really fun day! It was filled with activities and movies!

INSECT

This month we studied insects! We teach them how it is important to us, where they can be found, and what they do! We also learned about their life span and types of insects.

ض

LETTERS

O

Our children learn the letters O - U - L with Arabic letters such as ظ - ط - ض. We give our children lots of examples to be able to memorize and distinguish between the letters such as exercise, pictures, and toys.

L

ط

5

NUMBERS

3

For the numbers section, we learned the numbers from 1 to 9. We showed them what the number looks like and we combined the counting with the numbers of legs of an insect!

2

9

RECTANGLE

This month we focused on the shape rectangle. We did lots of activities based on that shape. As you can see in the pictures below, our children were having fun during the learning process.

CUTE BABIES

We got new pictures to share with our lovely babies!
