# LETTER FROM THE PRINCIPAL

Bye, October, and hello November! The winter is nearly here, which means more outdoor activities! It is important to us that our children be safe and comfortable, so our children have to wear jackets, long sleeves, and pants since the temperature continues to drop. Days are getting shorter but we must take advantage of the days to the fullest!

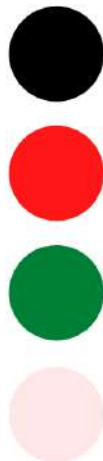

# FLAG DAY

We started this month with Flag Day! The event occurs on the 3rd of November, we celebrated it by wearing United Arab Emirates flag colors (Black, Green, White, and Red). We danced, sang and play. It was a wonderful day for us and the children.

# PLANTING DAY

It was a lovely day on the 11th of November, our children learned how to plant and get their hands dirty! While they were planting, they learned the parts of the plant and how to plant it. Our children were eager to participate and develop their hand skills.

# MY FAMILY AND ME

This month's theme is about Family. We teach our children the importance of the family and who they are to them. We read family stories, and we did lots of activities based on them. In addition, we teach them about:-

- Manners.
- Respect.
- Helping their parents.
- Be cooperative.

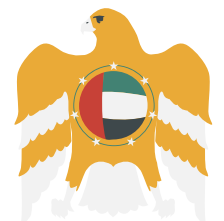

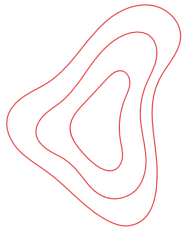

# NATIONAL DAY

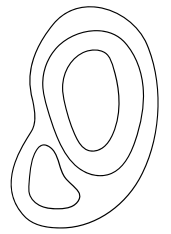

On the 25th of November, we celebrated National Day, it was a few days earlier than the actual day, because it will be a public vacation and we don't want to miss it out! The celebration was filled with music, dancing, games and a lot more to make the day memorable for our children.

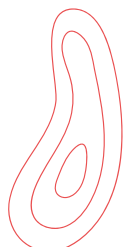

# TRADITIONAL DAY

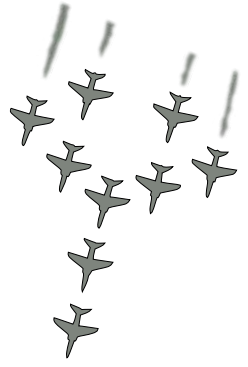

On the 28th of November, it was a traditional day! We made an event filled with games about UAE traditions for our children. They enjoyed showing off their beautiful and colorful dresses and Kandura.

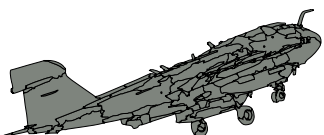

# COMMEMORATION DAY

On the 29th of November, it was a commemoration day in recognition of the sacrifices the soldier gave to perform their duties to the homeland and keep the UAE flag high. Our children wore military uniforms and they said a vow to their country. It was beautiful and inspiring, they made us proud as always.

# LETTERS

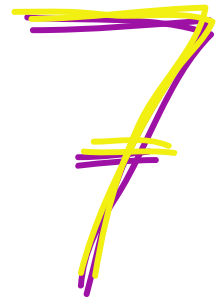

Our children learn letters C and N with few Arabic letters such as خ, ح, د. We give our children pictures that start with those letters and teach them how to spell them and distinguish between them since some Arabic words are similar in shape.

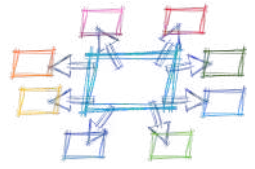

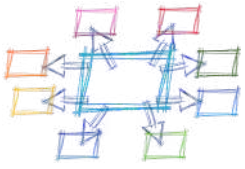

# NUMBERS

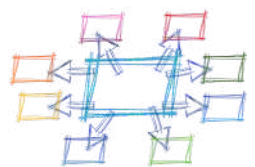

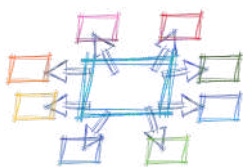

Our children are learning numbers from 5 to 7 this month. We gave them lots of examples for the children to be able to memorize the numbers and able to process them easier.

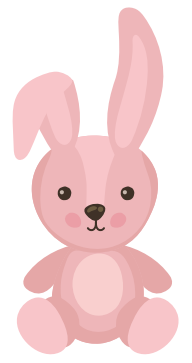

# RECTANGLE AND BLACK

This month we introduce our children to the rectangle shape, we gave them many forms and shapes of what rectangle can look like. As for the color, we teach them about the color black!

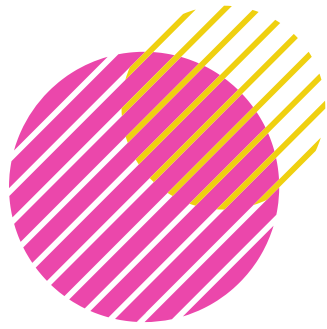

# CUTE BABIES

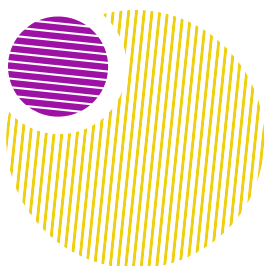

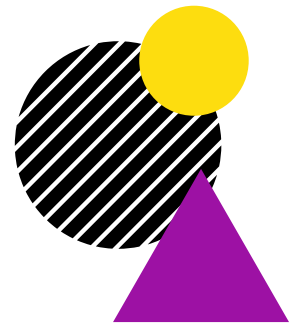

Before we end our newsletter, we want to share pictures of our cute and lovely babies. They bring joy and love to our nursery.
